

Mission

“To promote and guide the development of a national network of free clinics emphasizing the use of retired medical and community volunteers within a culture of caring to improve access to health care for America’s underserved, particularly the uninsured.”

Vision

“In every community, a culture of caring with health care for all.”

Credo

*“May we have eyes to see those who are rendered invisible and excluded,
Open arms and hearts to reach out and include them,
Healing hands to touch their lives with love,
And in the process heal ourselves.”*
